DATE: April 11, 2018

SUBJECT: Esri Small Municipal and County Government Enterprise Agreement (EA)

Increase of our current contract for Esri Small Utility Enterprise License Agreement (ELA) to Small Municipal and County Government Enterprise Agreement (SGEA). Our current contract is a three-year license agreement for Streets and Utilities; \$10,000 per year, for a total contact price of \$30,000. The new contract will allow for citywide license usage and will increase to \$25,000 per year, for a total contract price of \$75,000.

The Small Municipal ESRI software for Geographic Information Systems license (GIS) will allow the city to increase its geographic features mapping from Streets and Utilities to all city departmental functions including Land Management, Planning and Zoning and Emergency Services.

This increase will allow for a lower cost per unit for licensed software, substantially reduce administrative and procurement services, and includes all maintenance on all Esri software deployed under the agreement.
