**Subject:** Fwd: Public Art Agenda Jan 8

Mark,

This is a follow up from our conversation:

I would like to see some additional projects take off in 2019.

Art work at Sunset Beach - murals and statues (flying Pelicans, fish, etc.)

History Art walk

Historical pictures blown up and placed on buildings and open green spaces (tastefully)

Entrance sign to the Sponge Docks

Additional art work at the parks throughout the city and around the bayous

Golf course

Murals - picture wall (angel wings, sponger, octopus, shark, etc.) where people can take pictures with them and post to social media. Students from the high school or college should be able to participate with potential scholarships provided to the students.

I would also like to see the projects driven from the BOC and guidance given to the art committee, which would require quarterly agenda items. This should help with getting the projects moving at a hockey pace.

Thanks,

Jacob Karr  
Tarpon Springs City Commissioner
