MEMORANDUM

Bulletin B # 03-18

To: All Permit Applicants

From: Kevin Powell, CBO, CFM 

Subject: Residential Truss Engineering

Effective January 1, 2019, pursuant to Florida Building Code (FBC) chapter 107 and FBC-R802.10, all residential construction requiring pre-engineered trusses must submit signed and sealed truss drawings at time of permit application or prior to installation of trusses.

If you choose to submit prior to the installation of trusses there will no inspections performed after slab inspection until approval of the truss package.

Please plan accordingly to allow adequate time for review thus reducing your construction delays.
