RE: CDW-G Dell Virtualization Servers

Servers, backup tape drives, and other hardware are required for the City data center improvement project. This equipment will provide improved redundancy, service availability, backup, and disaster recovery capabilities. Most of the City's physical servers located at City Hall have gone through a process known as virtualization, which allowed dozens of physical servers to be consolidated into only three larger servers at the Public Safety facility. This offers a variety of benefits including lowering the total cost of ownership. The next step is to provide an identical setup at City Hall on which these virtual servers can run, and new backup storage and tape equipment at both sites. The majority of the items include 5 year warranties and support. The cost of this equipment is detailed below, not to exceed \$110,000.

| Quantity | Description | Unit Price | Subtotal |
|--------------|--|------------|---------------------|
| 2 | Dell Backup Storage Server (R740XD2) | 17,948.86 | 35,897.72 |
| 2 | Dell Tape Drive (PowerVault TL1000 LTO8) | 8,932.00 | 17,864.00 |
| 28 | Lenovo Backup Tape (LTO8 12GB) | 199.18 | 5,577.04 |
| 2 | Dell Card (Connect server to tape drive) | 140.00 | 280.00 |
| 1 | Dell Virtual Host Server (R740XD S2D Ready Node) | 33,161.58 | 33,161.58 |
| 1 | Dell Switch (S4048-ON) | 10,968.72 | 10,968.72 |
